

ABSTRACT

The subject of the present application is a dyeing composition for dyeing keratinous fibres, in particular human keratinous fibres such as hair, comprising, in an appropriate dyeing medium, at least one cationic tertiary para-phenylenediamine containing a pyrrolidine ring, and at least one particular surfactant chosen from oxyalkylenated carboxylic ether acids, monoglycerolated or polyglycerolated nonionic surfactants and their mixtures.

The subject of the invention is also the dyeing method using this composition.
